Plans Abandoned For California 1st Day By Chamber

Due to the lack of cooperation from state agencies, the Truckee Donner Chamber of Commerce has abandoned plans for California First Day on December 29.

This was to have been the date when the family breaking the tie in population between New York and California was due to arrive at the Truckee quarantine station. The chamber had developed plans to give the family a royal welcome with a public reception, gifts, tours and a dinner.

However, last week Daggett in southern California, greeted what they guessed was the tie-breaking family, gave them a reception and took them on to Beale Air Force Base where they settled. Naturally, it was impossible to accurately determine if the family was actually the one, as guesses have ranged over several months for the arrival of the person putting California in first place in population.

Because of the Daggett reception, state agencies have declined to cooperate with other stations and Daven Morey, chairman of the local committee said the Truckee-Donner group Tuesday met and decided to abandon plans, since the celebration here would be impossible without the cooperation which had previously been promised.

Traffic Declines During November

Although traffic through the Truckee quarantine station last month showed a major decline compared both with October and with November, 1961, the local station was still in second place among the 18 reporting points, exceeded only by Yermo.

There were 77,352 cars, 4,630 trucks and 1,812 buses and 228,623 passengers checked at the Truckee station. This compared with 98,749 cars checked in November last year and with 126,860 during October this year.

Yermo with 104,510 cars went ahead of Truckee for the first time in many months indicating the southern route being more popular this time of the year.

Meyers Station on Highway 50 last month recorded 66,146 cars, 496 trucks and 47 buses, with a passenger total of 166,375. This was almost double the cars checked during October when there were 31,317 and was far ahead of November, 1961 when there were 11,727 counted.

INCREASE IN TIMER CUT IS PROMISED

Congressman Harold T. (Bizz) Johnson of the Second District announced a net increase in allowable annual cut of timber in the amount of 547 million board feet for the 12 national forests in California where timber demand is now critical.

This increase will bring the total allowable cut to approximately 7¾ bilion board feet for the 42 national forests, including 19 million feet in Tahoe National Forest, where demand for stumpage is in excess of timber available for sale. (Allowable cut is the annual amount of timber which may be harvested from forests under sustained yield management and good conservation practices for permanent timber production).

NORTH TAHOE BRIEFS...

. . . By BETHEL
Telephone Liberty 6-3842

Fish story of this week. Bill Luce, well known Renoite and North Shore visitor, went fishing while vacationing at the Hotel Cabo San Lucas on the lower tip of California, and landed a first during a deep sea fishing expedition. On the verge of casting his line into the surf a pelican swept down for a nibble at his bait and got himself hooked. Bill is now credited with reeling in the only pelican this year. Thanks, (Journal).

FLU EPIDEMIC HAS NOT MATERIALIZED

SACRAMENTO—(CNS) — This winter's long-expected and often-forecast flu epidemic has failed to materialize thus far, the state department of public health reported.

"Through early November, no outbreaks of flu have been identified," the department said. "Moreover, absenteeism records of almost 150,000 school children in selected areas have been normal, as have industrial absenteeism figures.

"Deaths from pneumonia and influenza in major California cities have also remained at normal levels, as have all other indicators of flu activity," the department said.

Asian flu had been expected to strike California and the rest of the nation in heavy force this winter, based on the cyclical nature of the disease, as well as the identification of the Asian strain of influenza virus in numerous areas last spring.

ATOMIC PLANT FOR DOMESTIC POWER STUDIED BY FIRM

First reports on possibility of an atomic power plant in Central Nevada are encouraging, Fred L. Fletcher, president of Sierra Pacific Power Co., said.

The nuclear plant would be operated jointly by Nevada Power Co., in Las Vegas, and Sierra Pacific, in Reno, to provide power for future growth in both north and south portions of the state.

The Sierra Pacific president said each of several areas in the Tonopah vicinity "shows promise" of providing water needed for an initial nuclear power plant of 300 megawatt capacity and for an ultimate group of nuclear plants with a capacity of 1,000 megawatts.

He based the statement on the first report of a study of nuclear plant possibilities, and said the research will continue.

The Sierra Pacific president has said previously that a nuclear power plant in Nevada will probably be feasible by the late 1960's.

Engineers making the study visited four possible locations in early September. They were Fish Lake Valley, Railroad Valley, Big Smoky Valley and Walker Lake. The engineers made their headquarters in Tonopah during the field portion of the survey. They said an initial 300,000 kilowatt nuclear power plant would require about 5,000 to 7,000 gallons per minute of water for cooling purposes—about 8,000 to 12,000 acre feet of water a year.

Before any firm planning can be done, much more research is needed, the report indicated. The preliminary water supply estimates would have to be confirmed and further study would have to be accomplished on earthquake conditions, suitability of soil conditions for the heavy power plant foundation, and living area for operating personnel.

Estimates of water supply were based on the amount of rainfall in the valleys under consideration, balanced against the amount now evaporated into the air by vegetation. Records of the weather bureau, the Nevada State Engineer's office and the United States Geological Service were studied in making the estimates.

Fletcher said possibility of a nuclear plant to serve both northern and southern Nevada population centers was being studied because combining the two sets of power needs would enable a larger power plant than either Nevada Power or Sierra Pacific could justify alone.

He explained that large nuclear power plants can generate electricity at lower cost than small ones.

HEALTH NURSE WILL SERVE THIS DISTRICT

Although this end of Nevada County may be without the services of a sanitarian for an indefinite period, the area will retain the services of a public health nurse, Mrs. Lynne Uriu, who has been working closely with Richard Walker, the area sanitarian. Walker is being transferred by the department effective January 1, but Mrs. Uriu will remain.

The health nurse, a graduate nurse worked perviously at the Santa Clara hospital and is thoroughly familiar with her duties. She is making her home with her husband at Tahoe City but maintains an office in the Veterans Building here.

HIXSON RETIRES FROM HIGHWAY POSITION

A cheery note from Mr. and Mrs. Homer Hixson announced their departure for New Zealand where they will have their fill of fishing with a promise to see Truckee friends after their return in April.

Hixson recently retired from his position at Buellton with the California highways division. Their future address will be at a ranch in the vicinity of Biggs.

NO FAVORITES FOR NEW LICENSE PLATES

SACRAMENTO—(CNS) — So you want to have your initials or the the initials or an abbreviation of your firm's name on your new 1963 license plates.

You'd best forget it. It's not an impossible task but the road to the monogrammed license plates is beset with pitfalls. One of these pitfalls is that, if any employe of the state department of motor vehicles is found arranging for certain people to get certain license plates, he will be fired.

Otherwise, it's a matter of how much time you have to spend, how much traveling you can do, and quite a bit of luck.

A total of 10,082,000 of the new license plates — with black background and orange numbers and letters—have been distributed to the 142 offices of DMV. Some of these have been passed along to about 150 banks and about 150 automobile club offices.

Merry Christmas to all!

We have been hiding for a month — thus no report. We are now coming out of secret spot to wish you a wonderful holiday season and talk about ourselves.

After 20 years of greeting you at Christmas time from various hotels and lodges "on the hill" we are now sending our best wishes to you from our own place. We haven't sent out any official announcement as yet — because we wanted to make our little place the outstanding place that it is fast becoming so far as decor is concerned. Naturally, we are very thrilled.

But we haven't told where we are. If you are traveling to visit us from east of the hill, then take the Kingvale exit and turn back (on old Highway 40) to your right. If you are traveling westward to visit us—then take the Kingvale exit and, after the second stop

Tahoe Forest Hospital at 7 p. m. The group will then return to the church for refreshments and an evening of Christmas music. All those of high school age are cordially invited to attend.

Monday evening there will be three Christmas Eve Candle Light services of worship in our sanctuary. The young people of the church will re-create the nativity, carols will be sung, the Rev. Mr. Evans will have a Christmas Eve meditation, and then to conclude the service the symbolic sharing of the Light of the World as each worshiper is given a candle as the symbol of Jesus as the Light of the World. These services will be at 7, 9 and 11 p. m. You are cordially invited to share in these Christmas services of worship.

LIQUOR CONSUMPTION SHOWS GAIN IN STATE

SACRAMENTO—(CNS) — Hard liquor consumption during July, August and September apparently climbed about 10 per cent over a year ago, while the guzzling of beer and sipping of wine gained about 5.5 per cent.

This was the report of the state board of equalization, in noting excise taxes on alcoholic beverage distributions for the quarter totaled $13,926,309. This included $10,901,000 on 7.3 million gallons of distilled spirits; $2,844,000 on 71 million gallons of beer and $182,000 on 8 million gallons of wine.

GOVERNOR PRAISES STATE NEWSPAPERS

SACRAMENTO—(CNS) — Governor Edmund G. Brown, in his first capitol press conference since his re-election November 6, said he believes the press influences the community more than any other media.

The comment came after Brown said he felt the press was "absolutely fair" during the campaign.

"I do feel that, with one or two exceptions, the press, radio and television were absolutely fair during this campaign," Brown said. "I haven't always felt that way in other campaigns, even when I won.

"If you'll look, you will find out that the press still plays a very important role, if not the most important role, in the election of candidates in this state, in my opinion," the governor said. "I am not speaking of radio and television.

"It's been most obvious over the years that the press influences the community more than any other media and it puts a great responsibility upon it," Brown said.

The statement was made in a "joint" press conference, with representatives of two television stations and radio stations in attendance, as well as capitol newsmen.

YUBA SANDS MOTEL
right across the street from the new California Highway Maintenance Station.

We just had to take time to wish you Christmas Greetings — or we wouldn't be writing this at all—because we are not about to have a grand entrance time until we get the last coat of paint on our new homes cozy, friendly, interior. Nor until we get our last shined and polished glass on our "hide-away" bar. Nor until we get the last copper bottomed kettle gleaming in the kitchen. Nor until we set up our last dining room table with our new silver and dishes.

And with the crew of workmen that we are dodging every day—and the crates and boxes that are piled in every conceivable corner that we peek into (because we can't help it)—and the electricians and painters swarming over our little hive — we imagine that we will be sending out an announcement very shortly that will welcome you to our new home.

My brother, Bill Hack, of Sacramento and myself are in this enterprise as partners. We have talked of doing something like this for years — and now, that the dream has finally come true, it doesn't seem possible that Fran Couillard isn't going to move once again.

So—when we say the best of Holiday Greetings to you — all of our wonderful friends—you will know that it comes from a heart that is overflowing with Christmas Joy.

Peg Travis shares our new place with us. Art travels back and forth from the Soda Springs Post Office—and both these—my husband and my good friend — add their joyous wishes to mine for a wonderful holiday.

My long association with Bill and Dorothy Cannon at the Soda Springs Hotel is at an end—and if weren't so much fun to be under my own roof—I would add "regretably so."

We are "surrounded" by friendliness at YUBA SANDS, too, which is going to make the Christmas the best ever—even if we can't find time to send you a personal Christmas card. In our back yeard—flows the Yuba River. At the east of our back yard is the Kingvale subdivision—where we were practically raised. To the west of our back yard is Pla-Vada subdivision whose owners—Mr. and Mrs. Phillip Nicholls,I consider in the best friend bracket. And across the street— looking at the beautiful architectural set up of the new highway maintenance station—we feel that we are joining in the nucleus of a thriving, peaceful and beautiful community.

So—watch for our "All Ready to Go" Signal—if you want to see us in our new holiday appointments—and if you can't wait then come and crawl over packing cases with us—and we'll always find an extra mug for a Tom and Jerry—or a cup of coffee.

Again—we wish you, all of our wonderful friends—a very happy Christmas and we hope by New Year's we'll be able to wish you a wonderful New Year's in person.

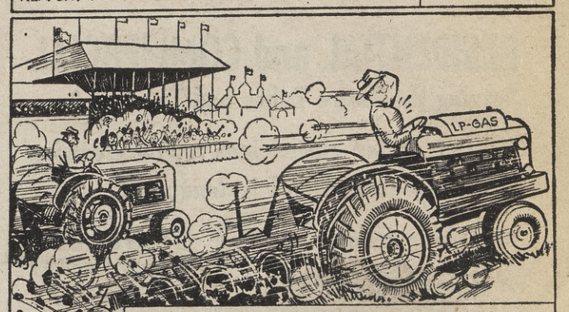
ONE OF THE MOST POPULAR EVENTS AT THE COUNTY FAIR OF 50 YEARS AGO, WAS THE TEAM PLOWING CONTEST. ALTHOUGH THE CONTESTS REMAIN ON THE PROGRAM AT SOME COUNTY FAIRS TODAY, THE WORK HORSES ARE KEPT FOR SENTIMENTAL REASONS OR "HOBBY" PURPOSES.



OF MORE PRACTICAL INTEREST TO FARMERS ATTENDING COUNTY FAIRS TODAY ARE THE TRACTOR CONTESTS. POWERFUL TRACTORS AND MOTOR FUELS MAKE THIS COMPETITION EXCITING. HERE, FOR EXAMPLE, AN LP-GAS FUEL TRACTOR PULLS AHEAD. LP-GAS IS GROWING IN POPULARITY AS TRACTOR FUEL BECAUSE ITS 110 PLUS OCTANE RATING DELIVERS GREATER POWER.

COMMISSION TO MAKE NO. LAKE ROAD PLAN

SACRAMENTO — (CNS) — The California highway commission announced it will consider at its December meeting, or later meeting, the adoption of freeway routings for sections of U. S. 50 and State Sign Route 89 near Meyers and Lake Tahoe in El Dorado County.

J. C. Womack, state highway engineer, has recommended, for U. S. 50, a route of 7.6 miles in length running east of the present highway between Meyers and the Nevada state line. The recommended route moves east from the present highway and Meyers and continues on a northerly course to the state line. It swings slightly west on a broad curve in the vicinity of Tahoe Valley.

The recommended route, for 4.6 miles, is a revision of a freeway route adopted in 1959 and will accommodate a northerly extension of the Lake Tahoe airport. The other three miles are the same as in the routing adopted in 1959.

LYRICAL LABRADOR—This pup, a pet of the youngsters at Hanna Boys' Center, appears to "dog-matically" agree that the old carols are the best carols. He seems to be joining in as the young choiristers practice for the coming Christmas caroling at the western "boys' town" near Sonoma. Lads from throughout California live at the 13-year-old Valley of the Moon home for neglected boys.

CONTRACTOR NAMED ON DIRECTOR BOARD

Both Henry Teichert of A. Teichert & Son, Inc., and John F. Otto, Inc., well known local building contractors, have been elected to three year terms on the board of directors of the Associated General Contractors of America, Inc. Also named was M. J. Heller of the Continental Heller Construction Company.

The three will aid in determining new policies of the organization, President Budd O. Stevenson, head of the organization which serves 46 northern California counties, said.

DECKER PROMOTED TO ARMY SERGEANT

TAHOE CITY — Word has been received here that Richard Decker, a 1958 graduate of Tahoe Truckee High School, has been promoted to sergeant. Decker, who joined the U. S. Army immediately after his graduation has been in West Germany since March, 1959.

He is expected to visit in Truckee with his mother, Mrs. Lola Decker, when he is on furlough in January. After his furlough, Sgt. Decker will be reassigned to a location in the United States.

SIERRA CLUB FAVORS JOINT STATE PARKS

Members of the Sierra Club from Sacramento and Reno have formed a committee to work for the establishment of an interstate park system at Lake Tahoe.

Head of the committee is Samuel G. Houghton, a retired naval officer from Reno.

The group particularly discussed a proposal to create a new park on the east shore of the lake through cooperative efforts by both states.

BISTATE PLAN MADE BY DEFENSE GROUP

STATELINE — A move toward coordination of disaster preparedness plans for the bi-state Lake Tahoe Basin was initiated by 30 representatives of civil defense agencies from the states of California and Nevada, and the counties of Placer, El Dorado and Nevada, of California, and Douglas and Washoe of Nevada.

Meeting together at the invitation of the Lake Tahoe Area Council, civil defense, law enforcement, fire protection and welfare officials of the area expressed agreement that disaster preparedness plans for the Lake Tahoe area would have to be developed on a basin-wide basis to be effective in times of emergency resulting from natural or war borne disaster. The area council was requested to sponsor a meeting for January 16 at the North Shore, at which time each of the counties will submit their organizational plans and inventory the basin's resources and needs for emergency equipment and personnel.

Groups represented included federal civil defense agencies, civil defense offices of Douglas, Placer, Nevada and Washoe Counties, Nevada and California Regional Civil Defense offices, California State Highway Patrol, American Red Cross, Lake Valley Fire Department and the U. S. Coast Guard.

STATE MAY BORROW TO KEEP BILLS PAID

SACRAMENTO—(CNS) — State Controller Alan Cranston said the general fund may have to borrow as much as $110 million during December and January, in order to keep the state's bills paid.

This would compare to $100 million borrowed a year ago and $138 million borrowed the year before that. The money is expected to be repaid next spring when tax revenues are heavier.

Cranston had said earlier borrowing would not be necessary as early this year and perhaps not in so great a quantity.

Although actual flight time of the first transcontinental air flight from New York to Pasadena was 82 hours, 4 minutes, the feat itself spanned nearly two months from September 17 to November 5, 1911.

AFFAIRS OF STATE

by Henry C. MacArthur

SACRAMENTO—(CNS) — Even though Richard Nixon, Republican candidate for governor, failed to win an election, some top administrative heads in Governor Edmund G. Brown's administration, are about to roll anyhow.

For the governor's top administrators, in response to corner office suggestions, are offering their resignations in anticipation of the new four year term.

This has been explained as the "usual protocol" expected of appointees of the president and governors alike at the end of each term. Reason given is that the chief executive should not be embarrassed by having to single out those whom he desires to replace.

This may be true. However, California in this century has had so few governors re-elected that it is not readily proven. While not admitted, it is said Governor Warren avoided this by the neat device of securing undated resignations before he handed out appointments.

That there will be some new faces in the governor's top positions is a foregone conclusion. Already, he is looking for a replacement for one of his outstanding selections of four years ago. This is John F. Henning, director of industrial relations, tapped several weeks ago by President Kennedy for a high federal office.

Because of his eight years as attorney general and experience as district attorney in San Francisco prior to that, Brown leaned heavily on persons with legal training for department heads when he came into office four years ago. As a result, some of these administrators may now be given judicial appointments. In some cases, this may be just a nice way to ease them out of present jobs while in others it will be in the nature of rewarding promotions for good work.

In a few cases, it can be expected that the guillotine will fall without ceremony. These will be those whose conduct has been embarrassing to the governor. Inefficiency, incompetence, arrogance or instances of political disloyalty or failure will be among the reasons behind the moves even though these reasons never will be admitted.

Heading the list to leave is F. Britton McConnell, insurance commissioner, whose open defiance of the governor rocked the capitol a few months ago. Also rumored on the way out are James D. Lobel, director of professional and vocational standards, and Alan K. Jonas, director of the disaster office. Jonas was one of two top level administrators that Nixon declared he would fire. The other, William E. Warne, director of water resources, appears secure, as Brown has termed him one of his best administrators.

Others who appear to be secure are Joseph Farber, director of veterans affairs; Hale Champion, director of finance; Richard A. McGee, head of corrections; and Tom Bright, director of motor vehicles.

Farber, who has had his troubles, makes up for his shortcomings by his overwhelming loyalty to Brown. Besides, his troubles have not been of his own making. Champion has proven to be a surprisingly good finance director and a valuable close advisor to Brown.

McGee is a carry-over from both Warren and Knight administrations, and demonstrates outstanding administrative ability. Bright has restored morale in his department following the hectic period of Robert McCarthy whom the governor fired following public disagreements.

BEVERLY GUNKEL IS QUEEN OF TAHOE'S BIG ANNUAL BALL

By Bethel

KINGS BEACH — The Sno Ball and Miss Sierra Snow Flake contest held at the Nevada Lodge on Saturday night has received nothing but rave notices over its success. Over 400 persons attended the ball and pronounced it the outstanding social function of the year, and the most tremendous party the Lake Tahoe-Sierra Chamber of Commerce has sponsored to date.

Beverly Gunkel, Chico State coed, won the title "Miss Sierra Snowlflake of 1963." According to Don Beck, chamber president, judging of all contestants was extremely close, not more than three points separated the winner from the entire court.

Two princesses were chosen to reign with the new queen. Sandy Snyder of Tahoe City was chosen runner up and Sharon Rosamond of Soda Springs was named princess number two.

Alice Hall, Isabell de Luque, Abby Sigesmund and Lorraine Ducharme lent their talents and are to be congratulated on the lovely appearance of the Nevada Room.

The buffet food was delicious with Carlton Konarske, manager of the Nevada Lodge, and Chef John Schadel responsible.

Heading the prize committee were Jean Van Wetter, Isabell de Luque and Dorothy Beck. Tickets were handled by Bernice May, Jim McCourry, Yvonne Bechdolt, Sandy Poulsen and Annette Anderson. Shirley Hulse handled the check room.

Too much cannot be said for the work of the beauty pageant committee which conducted a charm school, assisted the contestants in every way. Dorothy Beck, Jacquie Black, Eileen Wilen, Jetta Steward and Penny Fisher contributed untold hours to this phase of the show.

Velda Farris extends thanks to the hostesses who assisted her, Gwen Robinson, Florence Brown, Alysmae Schultz, Betty Vance and Bernice May.

Judges were chosen from out of the area and are to be commended for giving their time in traveling the distances they did to be on the most important committee of all.

Lee Hirshland came up from Reno where he is vice president and manager of KOLO-TV, to serve on this committee.

Dee Jenner has been a Hollywood resident and is an industrial designer.

Carson White is a Donner Lake resident and a ski columnist for the San Francisco Examiner.

Appearing on the program were Don Beck, chamber president, Fred Schultz, chamber manager and and Ernie Riley, chamber "Man of the Year."

Appearing, courtesy of Frank Sinatra's Cal-Neva Lodge, was the master of ceremonies and master showman of the evening—Soupy Sales. Soupy is well known to TV audiences, especially those receiving from the Los Angeles area. Although he was a comparatively newcomer to the North Shore, it is hoped he will be a regular visitor.

In the party who flew from Los Angeles with Soupy Sales and his wife were Mr. and Mrs. Charles Moses, public relations man for Sinatra and coming from San Francisco was George Taylor of the advertising agency that handles Cal-Neva's account.

General chairman, Bethel Van Tassel, wishes to thank all who participated, attended and supported the Lake Tahoe-Sierra Chamber of Commerce in this event. Merci.

HAZARDS OF WINTER DRIVING STRESSED

Winter sports will lure thousands to the mountains during the next few months, but for the unwary, the trip can be troublesome and in many cases dangerous, California Highway Patrol Commissioner Bradford M. Crittenden said.

He offered these reminders to motorists headed for snow country:

"Always carry chains. When signs say that chains are required, you must stop and put them on. And don't remove them until you see the official 'End of chain control' signs.

"Reduce speeds when driving on snow, ice or rain-slicked surfaces.

"Increase following distances. From three to 12 times more distance is required to stop on icy or snow-covered roadways.

"Use the brakes cautiously. Rapid but gentle pumping is the best means of stopping on a slick surface.

"Make turning motions slowly and smoothly to avoid skids. If a skid does start, turn the steering wheel in the direction the back end of the car is moving. When the vehicle straightens, pump the brakes gently to come to a stop."

For the first time in this century, the U. S. is growing more wood than is being removed from the forests by harvests, insects, disease and fire combined.

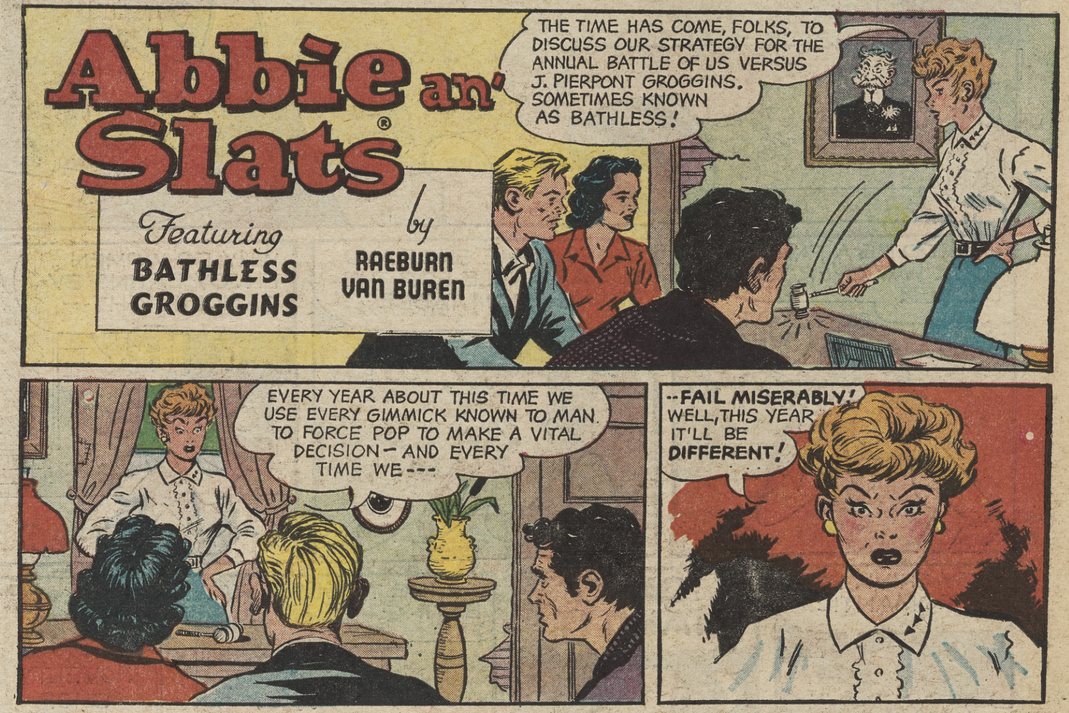
Featuring BATHLESS GROGGINS

by RAEBURN VAN BUREN



THE TIME HAS COME, FOLKS, TO DISCUSS OUR STRATEGY FOR THE ANNUAL BATTLE OF US VERSUS J. PIERPONT GROGGINS. SOMETIMES KNOWN AS BATHLESS!
EVERY YEAR ABOUT THIS TIME WE USE EVERY GIMMICK KNOWN TO MAN TO FORCE POP TO MAKE A VITAL DECISION — AND EVERY TIME WE---
--FAIL MISERABLY! WELL, THIS YEAR IT'LL BE DIFFERENT!
THEY'RE AT IT (CHUCKLE) AGAIN!
OH, NO, YOU DON'T, J. PIERPONT GROGGINS! AND THERE'S NOTHING LOWER THAN A LOW-DOWN EAVESDROPPER!
THAT'S NO WAY TO TALK TO A PARENT!
SLAM
NOW THAT WE GOT RID OF THE SPY I'M GOING TO LET YOU ALL IN ON MY PLAN TO--
---GET POP INTO A BATHTUB FOR HIS ANNUAL SCRUB-DOWN. AND THIS TIME I DON'T INTEND TO FAIL. OUR FATHER MUST TAKE A BATH!!
I GOT A (GROAN) SICKLY FEELIN' IN THE PIT O' MY STOMACH! THAT THEY'RE PLOTTIN' T' GET ME INTO A (UGH) BATHTUB!
